If you are not sure if you need a dedicated server or a shared hosting package please read this article.

Our dedicated servers are located in the UK (Telehouse, Redbus and Bluesquare), Greece (Otenet, Mednautilus), Germany (Frankfurt and Nuremberg) and we offer a 99.9% uptime on Network, Power, Latency and Packetloss. If you cannot find the server specs that you are looking for please contact us. We will be able to create any custom configuration; from simple raid configurations up to load balanced servers.

Cpanel can be installed with an extra 360€ per year or you can provide us with a license.
DirectAdmin can be installed with an extra 99€ one time fee for unlimited domains.
Any other control panel (Plesk etc.) can be installed in behalf of the client with one time fee of 100€.
Client must provide us with a valid license.
We can install for free the VHCS2 control panel,an excellent open source control panel.
Support of Webmin/Virtualmin is also included.
We support almost any Linux distribution along with Windows 2003 and 2008 server.

Optional features and extra services for servers hosted in the UK (Bluesquare)

* Additional 160GB Hard Drive - 80€ setup.
* Additional 250GB Hard Drive - 90€ setup.
* Additional 500GB Hard Drive - 100€ setup.
* Additional 750GB Hard Drive - 120€ setup.
* Additional 1000GB Hard Drive - 150€ setup.
* Additional 1GB RAM - 80€ setup.
* Additional 2GB RAM - 130€ setup.
* Additional 3GB RAM - 160€ setup.
* Additional 4GB RAM - 199€ setup.
* Additional 6GB RAM - 250€ setup.
* Additional 7GB RAM - 299€ setup.
* Hardware RAID card - 220€ setup.
* cPanel License - 35€ per month.

* Windows 2008 Datacentre (Dedicated only) - 60€ per month.
* KVM over IP - 40€ per hour.
* Remote-Hands - 30€ per 10 minutes / 60€ per hour.
* Block of 32 IP Addresses - 120€ setup. (Subject to RIPE usage approval)
* Additional 400GB Transfer - 15€ per month.
* Additional Network Backup Storage Space - 1€ per GB, per month.

For servers hosted within Redbus & Telecity please contact us to get a quote.

Optional features and extra services for servers hosted in Germany

* 1GBit port, 79€ per month (around 10TB inclusive traffic).
* 100Mbit bandwidth if standard traffic (usually 5TB) exceeded cost 9,9€ per TB.
* 120GB SSD hard drive, 29€ per month.
* 2 port hardware controller 48€ per month.
* 4 port hardware controller 59€ per month.
* Permanent KVM over IP 59€ per month.
* Extra hardware, price on request. Please contact us.
* KVM over IP - 30€ per hour.
* Remote-Hands - 30€ per 10 minutes / 60€ per hour.
* An additional subnet costs 15 Euro/month and then:
a /29 (6 usable IPs) subnet costs 10 Euro per month.
a /28 (14 usable IPs) subnet costs 20 Euro per month.
a /27 (30 usable IPs) subnet costs 50 Euro per month.
a /26 (62 usable IPs) subnet costs 80 Euro per month.
a /25 (126 usable IPs) subnet costs 120 Euro per month.
a /24 (254 usable IPs) subnet costs 200 Euro per month.

Be aware that only up to 4 IP addresses (including the main) can be requested and assigned to any server. Those extra 3 IPs are included for free. Then you will need to get any of the above subnets.

Optional features and extra services for servers hosted in Greece

Hardware is fixed on all servers offered in Greece and upgrade is possible only after getting in touch with us in order to check availability.
Bandwidth prices goes lower when you order higher volume. Be aware that traffic is very expencive in Greece. However, the uptime of the data centers are extremely high achieving almost 100% for the past 5 years (from 2005-2010).

Example bandwidth prices given below:
200GB traffic per month: 120€/month
300GB traffic per month: 190€/month
500GB traffic per month: 390€/month
1TB traffic per month: 500€/month
